ABOUT ME

Electronics and Communication Engineering undergraduate with strong problem-solving skills and hands-on experience in full-stack web development. Passionate about building scalable software using the MERN stack and continuously improving data structures, algorithms, and system design knowledge

EDUCATION

2014 – 2020	Secondary	Kenduadihi High School
2020 - 2022	Higher Secondary	Kenduadihi High School
2023 - Present	Bachelor of Technology (B.Tech)	Techno Main Salt Lake

TECHNICAL SKILLS

Core Computer Science - Data Structures and Algorithms - Object-Oriented Programming - Operating Systems - Database Management Systems - Computer Networks Tools & Technologies - Git & GitHub - Visual Studio Code - Postman	Web Development - HTML5 - CSS3 - React - Redux - Node.js - Express.js - Tailwind CSS - REST APIs	Programming Languages & Databases - C++ - Python - Java - C - JavaScript - Typescript - MongoDB - SQL
---	---	--

EXPERIENCE

- Smart India Hackathon (SIH) – Web Development Team Member**
 - Designed and developed a full-stack web application as part of the development team.
 - Worked with technologies including HTML, CSS, JavaScript.
- Manual Robotics Competition**
 - Built and operated a manually controlled racing robot for obstacle-based competitions.
 - Collaborated with team members to troubleshoot mechanical issues and improve robot performance

PROJECTS

Jupiter Bank | Full Stack Banking Application

Full-stack banking application built with React.js, Node.js, Express.js, and MongoDB, implementing JWT authentication, REST APIs, and responsive UI.

ACHIEVEMENTS

- Solved 400+ Data Structures & Algorithms problems on LeetCode.
- 1st Rank – Robo Race, Intra Cup 2025
- Selected for Second Round – Smart India Hackathon (SIH) 2024 & 2025
